

Ergofocus

& Paxfocus

1983

DESIGN: DOMINIQUE IMBERT

The timeless design of the Ergofocus, created in 1983, earned it the honour of being exhibited at Stockholm's Museum of Modern Art.

Four decades on, it now exists in four different fuel types to suit every requirement and environment.

Its streamlined shape, ergonomic design and compact size make the Ergofocus a perfect fit for any space, multiplying the possibilities to have a suspended, pivoting fireplace in an interior.

2023 HOLOGRAPHIK®

The Holographik® Ergofocus offers a unique sensory experience, with virtual flames, the sound of a crackling fire and optional gentle heat diffusion through the flue. This electric fire is the ideal solution to enhance a space with a Focus fireplace without the need for an external flue outlet. All you need is an electrical connection.
