DESIGN: DOMINIQUE IMBERT

The Domofocus is the winning culmination of a design quest to offer the organic lines of the iconic Gyrofocus at a more compact size.

While it has a smaller hearth diameter, the more rounded and larger opening enhances its welcoming smile and makes tending the fire easy.

2022 WOOD ECODESIGN

The wood-burning Domofocus was reissued in 2022 in a closed glass-fronted version with excellent energy and environmental performance. Its two sliding glass panels offer an unobstructed view of the fire.
