CREATE BEYOND CONVENTION

Domofocus

2015 The original

The Domofocus is the winning culmination of a design quest to offer the organic lines of the iconic Gyrofocus at a more compact size. While it has a smaller hearth diameter of 1.10 m, the larger opening gives it a more generous smile and jaunty shape than its forebear.

Outdoor (wood-burning)

The Domofocus can also be enjoyed outside, with an outdoor version available in black anti-corrosion paint or a rust finish developed with Focus's exclusive savoir-faire. Through this process, the rusted surface changes over time to take on the appearance of bronze patina.

2022 Wood-burning (Ecodesign)

The Domofocus has been reissued in a closed version with glass panels that complies with EU Ecodesign regulations, which set standards for energy performance and emissions.

2024 Bioethanol

Smokeless, with no external flue: the installation possibilities are endless!

Fuelled with bioethanol and fitted with a fully electronic, safe burner (made in France), this fireplace is operated by remote control. It is smokeless and does not require an external flue outlet, allowing this suspended fireplace unprecedented freedom of installation on any floor. In contexts in which a flue connection is necessary, this is also possible.

- Diameter: 110 cm
- Hearth rotates 360°

WOOD (ECODESIGN)	BIOETHANOL
Nominal heat output: 18 kW Efficiency: 81% CO at 13% O ₂ : 0.09% (1102 mg/Nm ³) NO _x at 13% O ₂ : 151 mg/Nm ³ OgC at 13% O ₂ : 34 mg/Nm ³ Particle emission: 19 mg/Nm ³ Hearth: 89 kg Flue: 16 kg/m	INSTALLATION WITHOUT FLUE CONNECTION • Nominal heat output: 7 kW • Autonomy: 8 h / minimum volume of room: 125 sq m INSTALLATION WITH FLUE CONNECTION • Nominal heat output: 9 kW • Autonomy: 7 h Hearth: 110 kg Flue: 16 kg/m
