

# Slimfocus

2015

---

DESIGN: DOMINIQUE IMBERT

*Minimalist in design, the Slimfocus represents the purest expression of fire. This model stands out for its streamlined style and remarkably compact form. It is available as a wood-burning or gas version, with either a conventional flue or balanced flue, and is designed for low-energy homes.*

## CONVENTIONAL OR BALANCED FLUE

*In both its conventional flue and balanced flue versions, the wood-burning Slimfocus is designed to deliver outstanding energy and environmental performance in full compliance with EU Ecodesign regulations.*

*The balanced-flue Slimfocus is compatible with low-energy buildings. Its firebox is airtight, drawing its combustion air directly from outside through the flue, ensuring optimal combustion without disrupting the home's ventilation system. No floor or wall air inlet is required.*
