

Ergofocus

& Paxfocus

1983

DESIGN: DOMINIQUE IMBERT

The timeless design of the Ergofocus, created in 1983, earned it the honour of being exhibited at Stockholm's Museum of Modern Art.

Four decades on, it now exists in four different fuel types to suit every requirement and environment.

Its streamlined shape, ergonomic design and compact size make the Ergofocus a perfect fit for any space, multiplying the possibilities to have a suspended, pivoting fireplace in an interior.

2024 BIOETHANOL

Smokeless, with no external flue: the installation possibilities are endless!

Fuelled with bioethanol and fitted with a fully electronic, safe burner (made in France), this fireplace is operated by remote control. It is smokeless and does not require an external flue outlet, allowing unprecedented freedom of installation on any floor.
