

Bathyscafocus

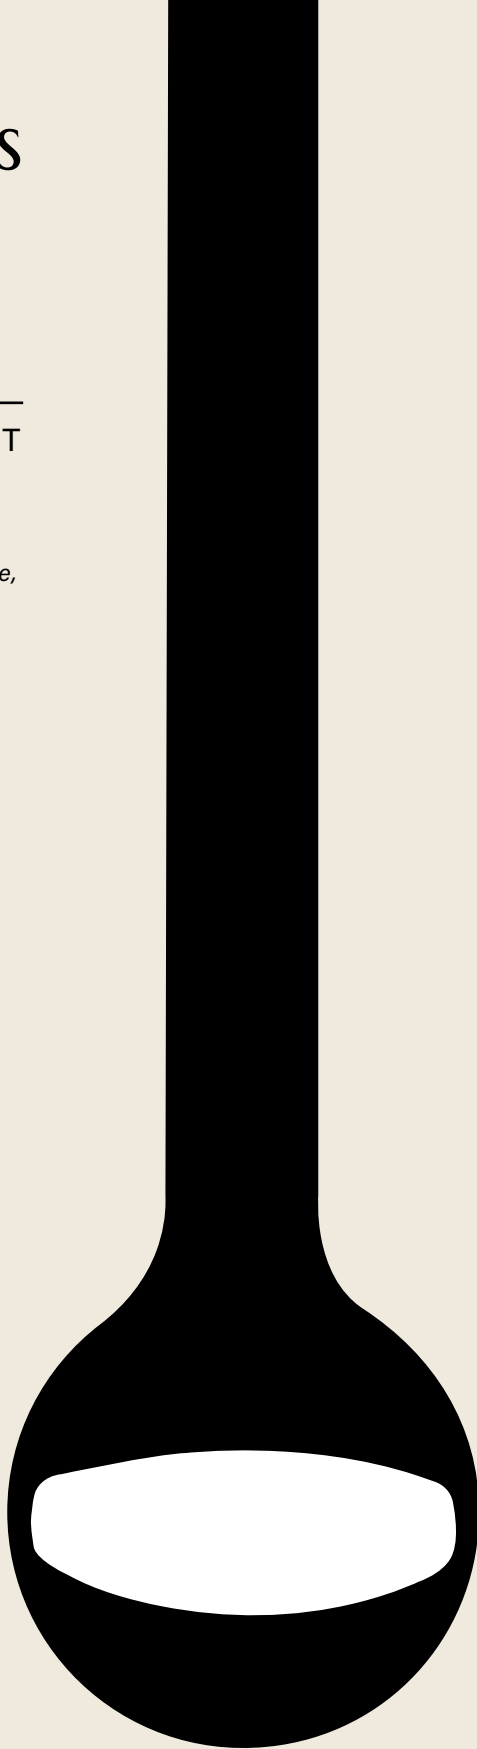

& Emifocus

1978

DESIGN: DOMINIQUE IMBERT

Taking its name from a deep-sea submersible, the spherical, suspended Bathyscafocus is evocative of underwater exploration.

Its rounded, compact design is as resolutely contemporary as ever.

CREATE BEYOND CONVENTION

Bathyscafocus

(wood-burning)

The outdoor models are available with a black anti-corrosion finish or a rusted finish, both developed by Focus for exterior use. The rusted surface gradually changes, so the patina gains character over time.
