INSTALLATION INSTRUCTIONS

NOT CONNECTED TO A CHIMNEY FLUE

- **Detailed plan**

INSTALLATION INSTRUCTIONS

NOT CONNECTED TO A CHIMNEY FLUE

INSTALLATION INSTRUCTIONS

NOT CONNECTED TO A CHIMNEY FLUE

- Clearance distances from combustible materials

- It is necessary to keep the fireplace away from a bay-window, even though the latter is considered non-flammable. The required distance is **500 mm**. This distance can be reduced if special glass is used (ask your glass supplier for more details).

INSTALLATION INSTRUCTIONS

NOT CONNECTED TO A CHIMNEY FLUE

- Fireplace installation

INSTALLATION INSTRUCTIONS

NOT CONNECTED TO A CHIMNEY FLUE

Once your fireplace is installed, please refer to the instructions for the installation of the ethanol burner.

INSTALLATION INSTRUCTIONS

CONNECTED TO A CHIMNEY FLUE

Once your fireplace is installed, please refer to the instructions for the installation of the ethanol burner.

INSTALLATION INSTRUCTIONS

CONNECTED TO A CHIMNEY FLUE

- **Damper rules**

The damper, located on the flue, is used for both regulating and blocking the smoke flue during periods of non-operation. Before igniting, check the position of the damper, with the handle indicating the position of the damper. To change the position, pull the damper towards oneself, turn it slightly, and push it back to achieve one of the 4 possible positions of the flap disc inside the flue.

! To ensure proper operation of the appliance and to benefit from the guarantee, it is **STRICTLY** forbidden to use position **0** as it would damage the burner.

We recommend using only positions **1** and **2**.

Position **3** may cause excessive draw, potentially disrupting the flame; therefore, we advise not using it.

INSTALLATION INSTRUCTIONS

RETRO-FIT : OPEN WOOD-BURNING ERGOFOCUS ALREADY INSTALLED

• Before burner installation

 Before installing the burner inside the fireplace, it is **IMPERATIVE** to:

1. Sweep the chimney.
2. Remove the fireplace grate.
3. Remove the ashtray hatch.
4. Replace the rotation device bearings with stainless steel bearings.

INSTALLATION INSTRUCTIONS

RETRO-FIT : OPEN WOOD-BURNING ERGOFOCUS ALREADY INSTALLED

Once your fireplace is installed, please refer to the instructions for the installation of the ethanol burner.
