

Ergofocus

& Paxfocus

1983

DESIGN: DOMINIQUE IMBERT

The timeless design of the Ergofocus, created in 1983, earned it the honour of being exhibited at Stockholm's Museum of Modern Art.

Four decades on, it now exists in four different fuel types to suit every requirement and environment.

Its streamlined shape, ergonomic design and compact size make the Ergofocus a perfect fit for any space, multiplying the possibilities to have a suspended, pivoting fireplace in an interior.

2022 WOOD-BURNING

The Ergofocus has been reissued in a closed, ecodesigned version, replacing the open wood version. It offers excellent energy and environmental performance.
